Our Vision is to be the best option of high quality and food innovation globally.

OUR VISION

ABOUT US

Our story begins in 1986 when the first pecan tree was planted at our Orchard Company: El Ruezno. From the very start, we have always strived to produce high-quality pecans for the region. Today, we have expanded our operations and flourished with thousands of pecan trees, allowing us to produce and sell our pecans to the entire world. With a wealth of experience in the pecan industry, we fully understand the importance of every step in the value chain. That's why we are committed to delivering a delicious and nutritious experience with every pecan we produce.
